on RUDGWICK HERITAGE TRAIL

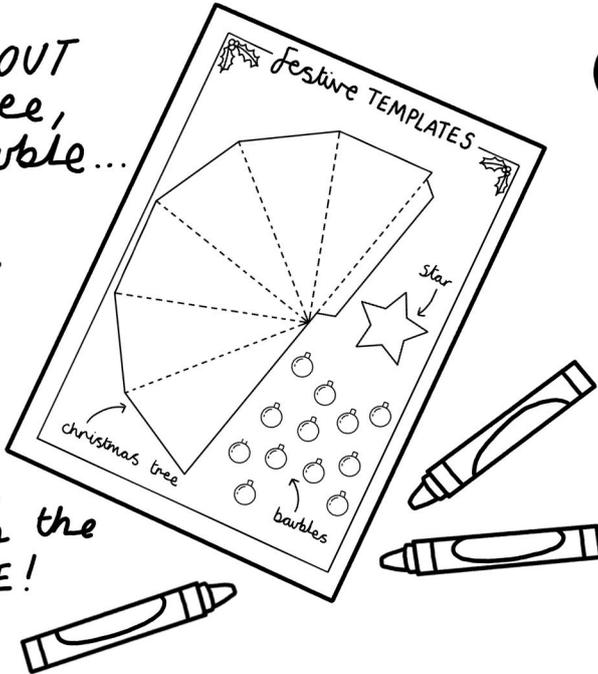

make your own LIGHT-UP TREE

You will need: the 'FESTIVE TEMPLATES' PDF, scissors, colouring pencils OR pens, compass OR sharp pencil, glue, LED tealight, scrap card OR magazine.

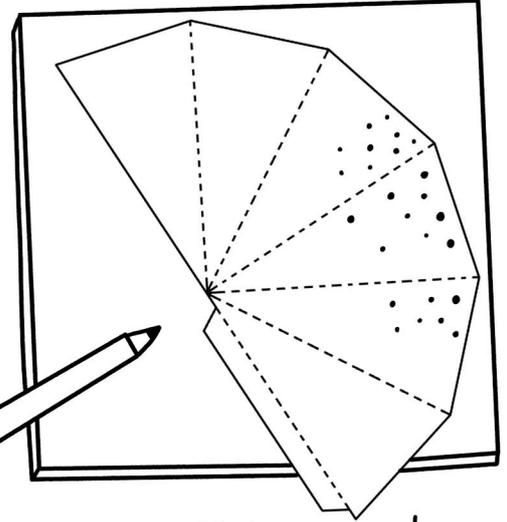

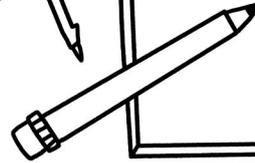

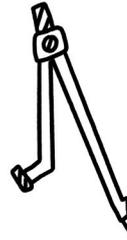

1 CUT OUT the tree, star & bauble...

... then TURN the tree OVER so you are colouring in the BLANK SIDE!

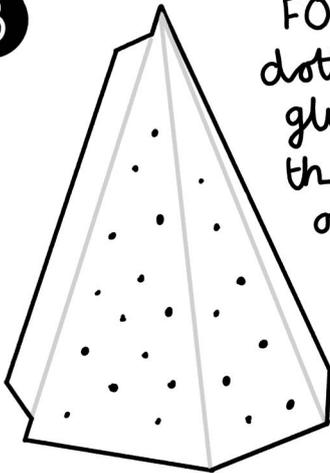

2

Place the TREE on top of thick card or an old magazine. Use a COMPASS or sharp pencil to PUNCH holes into the tree

3

FOLD along the dotted lines and glue together using the TAB, that's on one edge, to make a 3D PYRAMID shape.

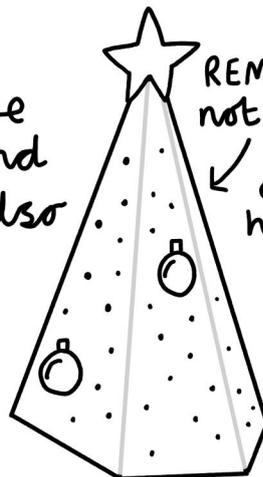

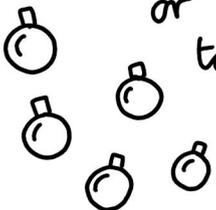

5

Place the tree over an LED TEALIGHT to make it LIGHT UP!!

4

DECORATE the tree with the STAR and BAUBLES. You can also add stickers or other things to make it FESTIVE.

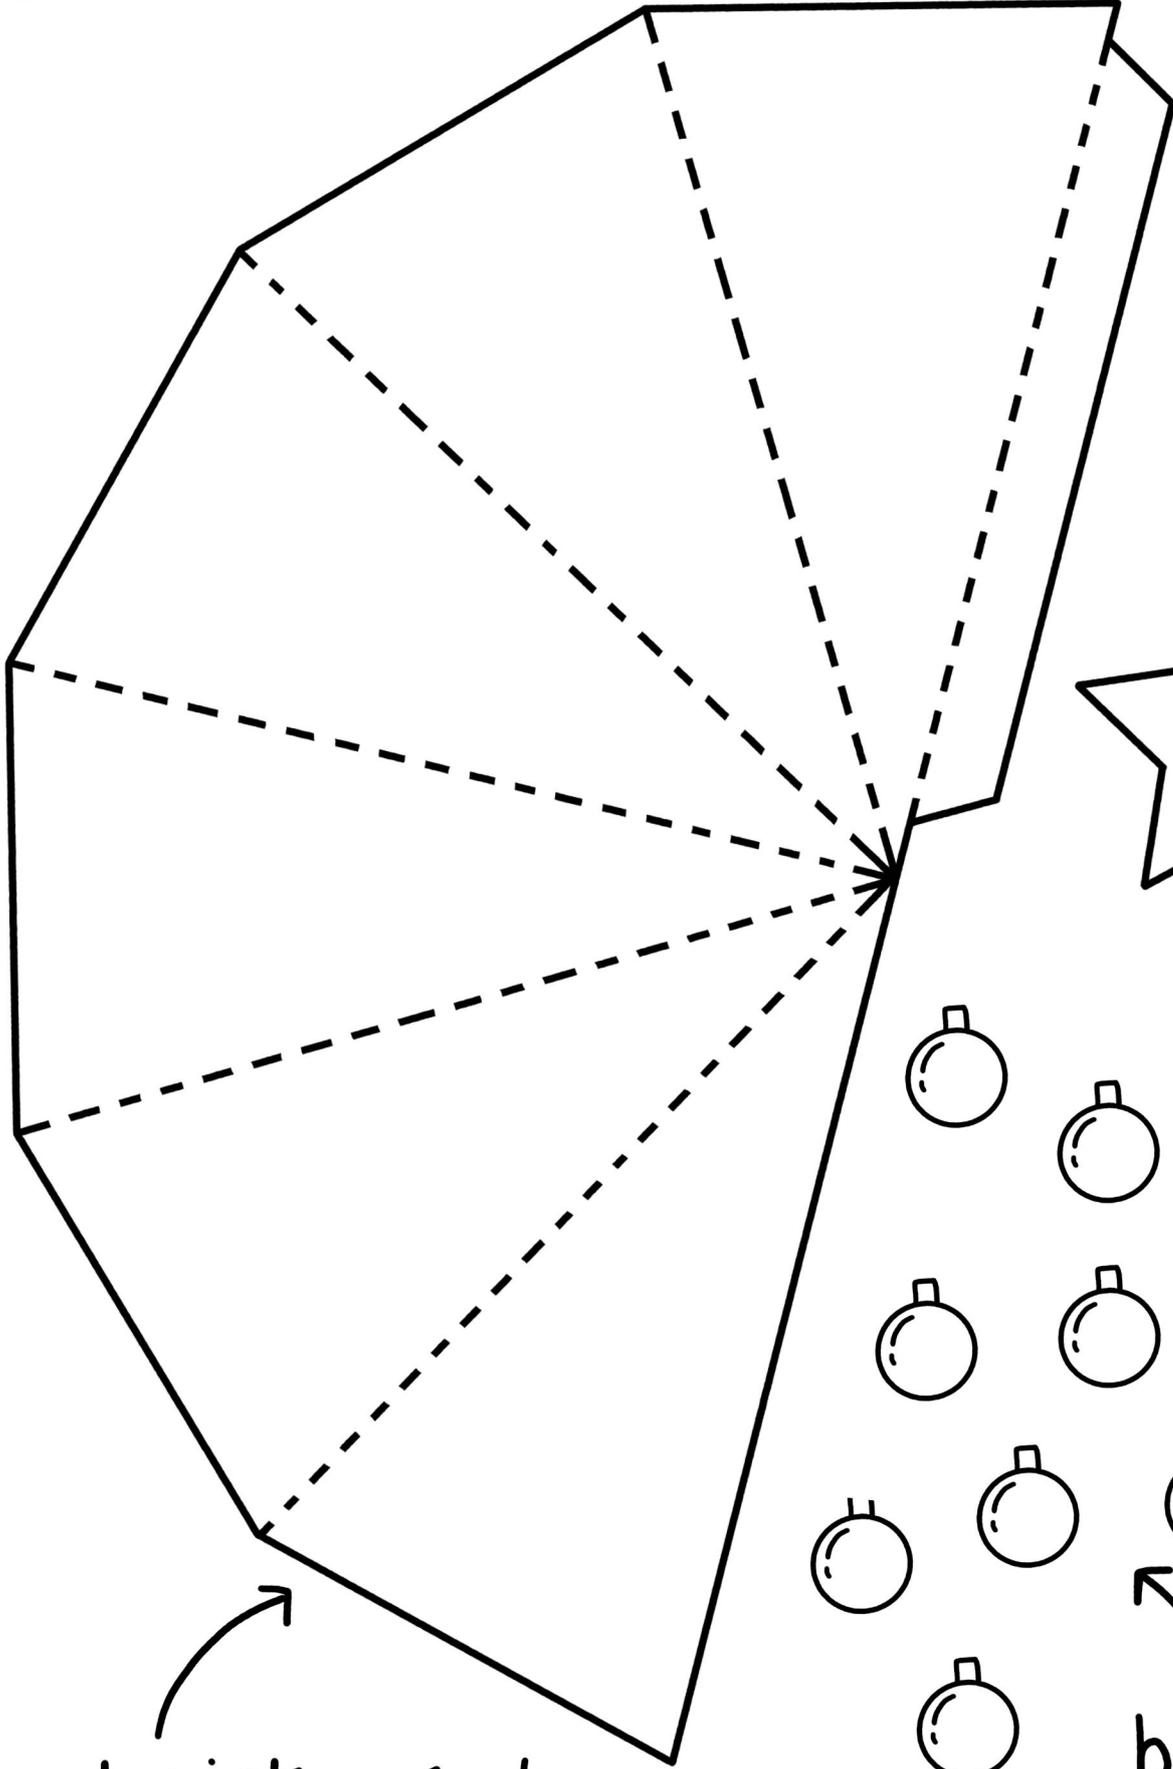

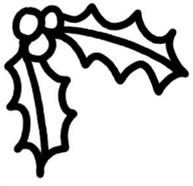

REMEMBER not to cover all the holes!

optional EXTRAS

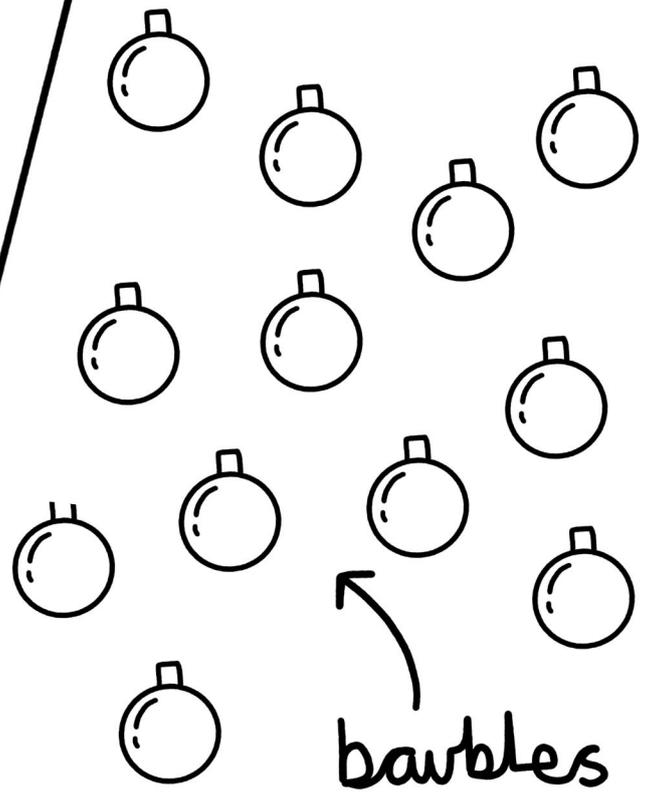

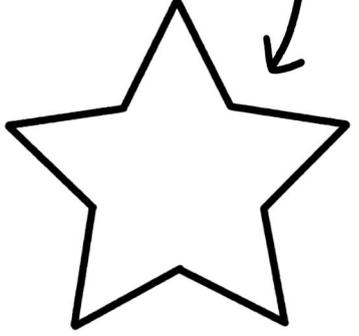

★ Turn them into place settings by writing your guests names in the Star!

★ Use the pyramid shape as a base for other creations --- turn it into an ELF, SANTA or even a SNOWMAN!
